**Subject:** RE: Needles and syringes in 2006

Cam and Julie, Some of the not tested syringes have other items with them. However many are brought in and not tested because the police depts need a certificate in order to get the syringes destroyed by food and drug.

**Subject:** Needles and syringes in 2006

Hi Julie,

I have tallied the needles and syringes that were submitted to the Boston and Amherst Labs in calendar 2006. Some of these were analyzed in 2007. I will fax you a print out of these items sorted by city (or agency). The print out lists sample number, case number (as a substitute for defendant), city, findings, date submitted and date analyzed. Check with Chuck, but I believe that he said that most or all of the not tested had other items with that defendant. If you want I can check that, but it will take about an hour. Let me know if you want it.

The totals are

Not tested	201
Heroin	80
Negative	63
Cocaine	17
Morphine	4
Fentanyl	4
Monoacetyl morphine	3
Testosterone	2
Methylphenidate	1
Diltiazem	1
Procaine	1
-----	
Total needles & syringes	377

Let me know if you need anything else.

Cam
